THE COST OF COVID

The COVID-19 pandemic forced significant change on the AFL competition in 2020, and the impact will continue to be felt throughout the industry for future seasons. Some of the more notable changes ahead of 2021 include:

PLAYING LIST REDUCTION

Clubs are now permitted a maximum of 44 players (the Brisbane Lions had 47 in 2020) and a minimum of 37 players on their list.

To reach the maximum 44 players, clubs can carry between 36-38 senior listed players and 4-6 rookies (includes both Category A and B rookies).

FOOTBALL SPENDING

The football department 'soft cap' (the maximum total spending on football operations before being taxed by the AFL) has been slashed by more than 30% - from \$9.4 million in 2020 to just over \$6 million next season. This has forced all clubs, including the Lions, to farewell valuable staff to accommodate these new parameters.

SEASON FIXTURE

The AFL has released Round 1-6 of the 2021 fixture - with the dates and times of the remaining blocks of matches to be determined once the season commences.

The rolling fixture is designed to provide the competition with some flexibility should another COVID breakout occur in 2021.

THE COST OF COVID

RULE CHANGES

Clubs will be restricted to 75 interchanges per match - down from the 90 allowed in 2020.

50m penalties will be imposed on players who move outside a one metre “level of tolerance” laterally off the mark before ‘play on’ has been called.

Players returning the ball into play after an opposition kicks a behind will be given a 15-metre space (an increase of 5 metres) between them and the opponent standing the mark.

The new rules have been designed to try and “open up congestion” and “put a bit of fatigue back into the system”.

DEPARTURES

The Brisbane Lions have farewelled **10** players this off-season - each of whom has contributed to the growth and improvement of the Club. We thank them for their service and wish them well for the future.

AFLW

A single ladder will be used for the nine-round NAB AFLW 2021 season, instead of having two separate conference ladders as has been the case for the past to seasons.

All games will be ticketed for the first time, while the season itself will start a week earlier (Thursday, January 28) than its customary position of the first weekend in February.

Brownlow Medallist Simon Black will also continue to work with the group on a part-time basis as a stoppage coach.

LIONS ACADEMY

BACKGROUND

The Hyundai Help for Kids Lions Academy started in 2010 when the AFL partnered with four Northern Market AFL Clubs to introduce academies in Queensland and New South Wales and ACT.

The program was designed to provide the Brisbane Lions an opportunity to produce and retain high end talent, which would then help long term on-field success for the football Club. It would also help grow the game of AFL in Queensland and create an active connection to the communities within the Lions zone.

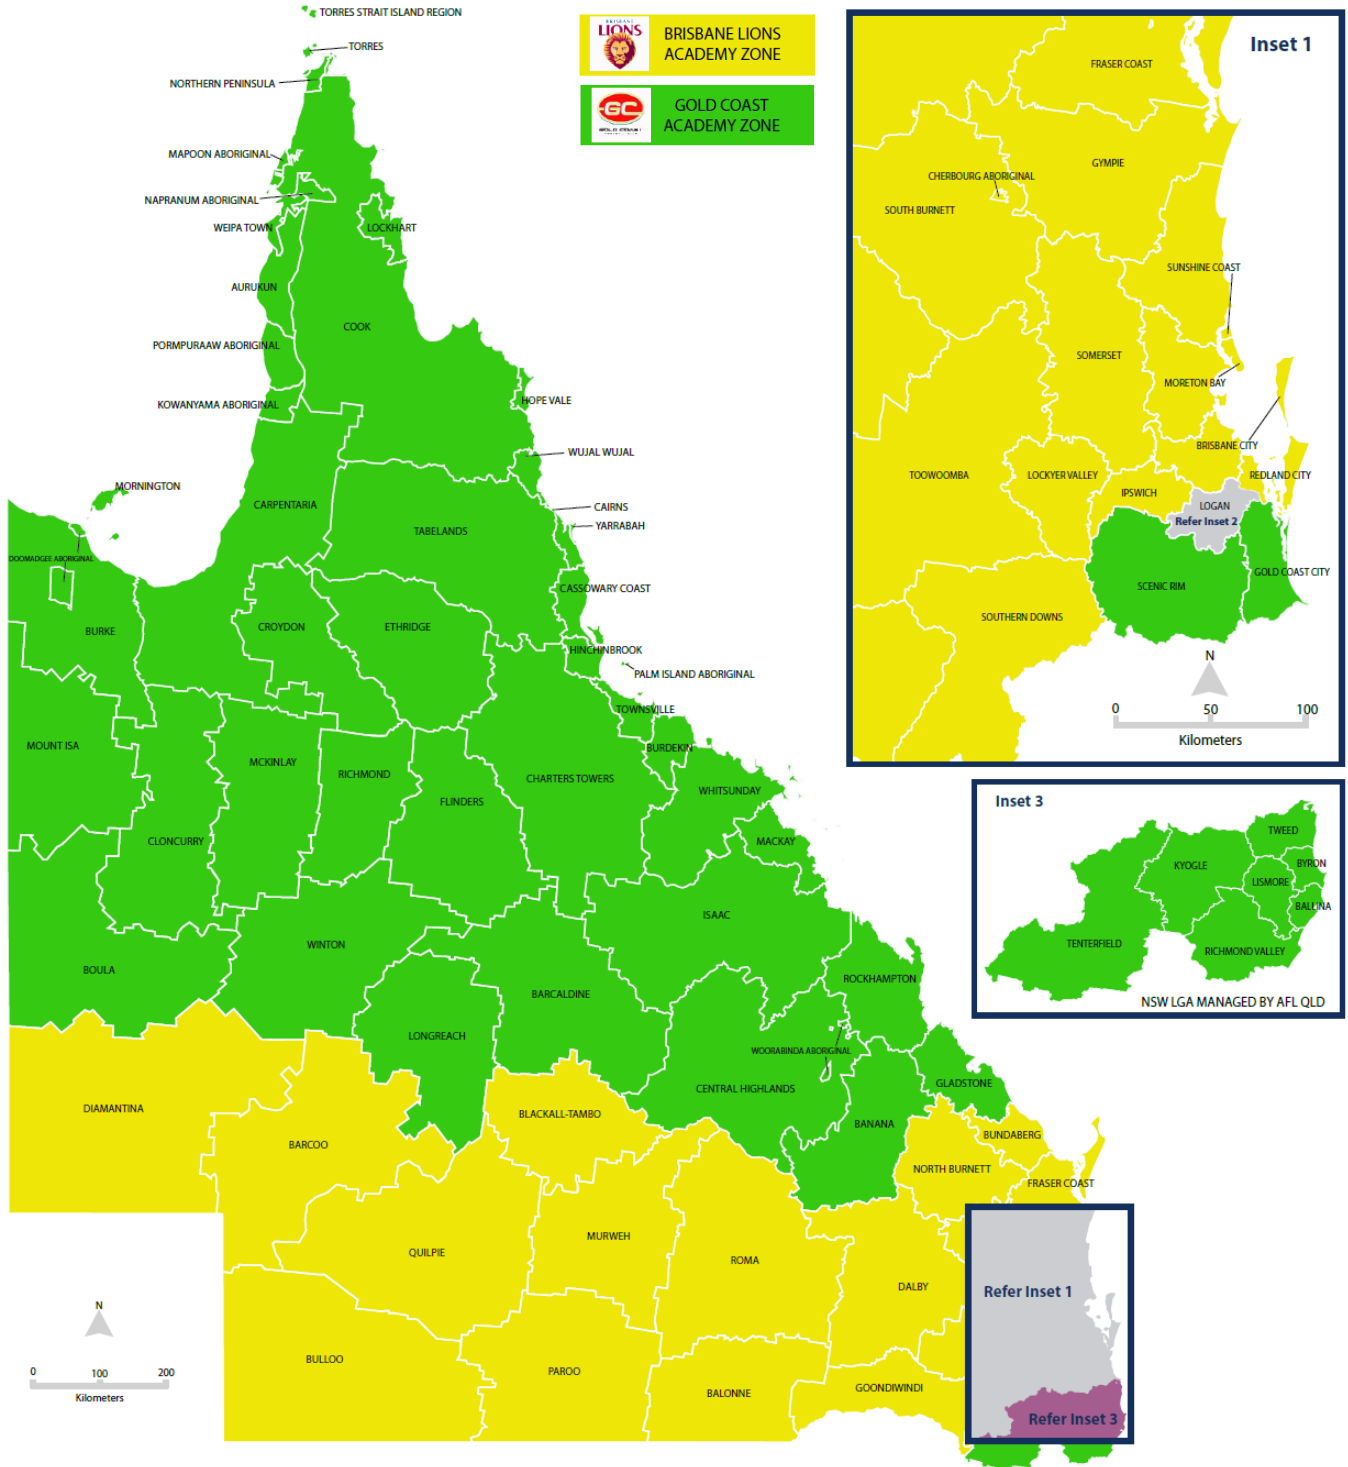

For players in Queensland, it provided a clear, compelling pathway from footy to potentially being drafted onto the Lions list. It also gave them elite training and access to highly qualified coaches, wellbeing, conditioning and medical staff, as well as AFL standard facilities.

LIONS ACADEMY

CLUB ACADEMY MODEL QUEENSLAND - ZONING MAP

The AFL has designated clear and distinct Academy zones in Queensland for both the Lions and the Gold Coast Suns (*see map above*). The Lions have access to the following regions:

- **Brisbane** (Logan, Brisbane, Ipswich, Moreton LGA's)
- **Darling Downs** (Toowoomba, Warwick, Dalby, Goondiwindi, Gatton)
- **Sunshine Coast** (Caloundra to Noosa, Gympie)

NEXT GENERATION

WHAT IS THE NGA?

The Next Generation Academies (NGA's) are a joint initiative between the AFL and AFL Clubs aimed at the attraction, retention and development of all talented players (both male and female), whilst growing participation in the under-represented segments of our community.

A key objective of the NGA's is to increase the talent pool of Indigenous and Multicultural players. These groups are significantly under-represented in the AFL comparative to the population, and therefore AFL Clubs are incentivised through draft concessions .

Each club has a designated region to conduct their Next Generation and/or Club Academy programs (Club zones are loosely outlined on map below).
